

Wind Indicator Attachment for the FrSKY X20/X20S Transmitters

10-15-22

Simple wind indicator attachment. JB Welded a 5/32 inch brass tube inside the module cover; fits a 3.2 mm carbon rod (18 inches, attached streamer). Kapton tape secures the module cover. Replacement covers are \$1 via HorusRC.com. Note: brass tube is secured above the internal pins, and the end is plugged (JB Weld).
